1	PLBLOCK-R	3-chip-in-1 SMD LED module is three times brighter than other single chip SMD LED. Unique waterproof treatment technique ensures safety in moist locations	73*38*10	20g	12VDC	80mA	0.96W	IP65	red	623±5nm	120°	1000	4		\$4.40
2	PLBLOCK-Y		73*38*10	20g	12VDC	80mA	0.96W	IP65	yellow	585±5nm	120°	1000	4		\$4.40
3	PLBLOCK-G		73*38*10	20g	12VDC	80mA	0.96W	IP65	green	520±5nm	120°	3000	4		\$4.40
4	PLBLOCK-B		73*38*10	20g	12VDC	80mA	0.96W	IP65	blue	465±5nm	120°	600	4		\$4.40
5	PLBLOCK-W		73*38*10	20g	12VDC	80mA	0.96W	IP65	white	x=0.31 y=0.32	120°	3600	4		\$4.40

*The Sticks, PLMOD 1, are 10- 3/16” long, 1/2” wide, and 1/4” tall. They are essentially a superbright led strip encased in a clear plastic housing. The fittings on the end, one male, one female, allow the sticks to easily be “chained” together with no other wiring needed.*

*They are NOT waterproof, and so are rated for indoor or dry locations. We also carry connectors that are designed to allow as many as 4 strip lines to be run from one power source.*
